

Place the chromed strips according to your taste.

Caution:

Handle with care, and avoid to touch the adhesive part of the chromed strips.

Note:

The chromed strips have different lengths.

Please make sure to note this before placing the chromed strips on the fascia plate.

INSTALLATION MANUAL

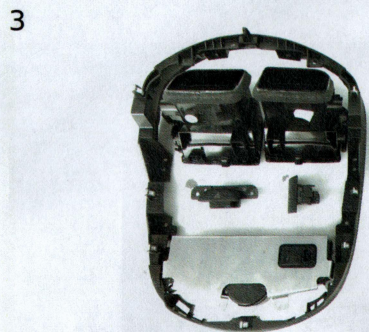

All installation work must be performed by a qualified professional installer only.
The manufacturer / dealer is not liable for any kind of incidental or indirect damages.

1 Remove the plug over the original radio and save the screws.

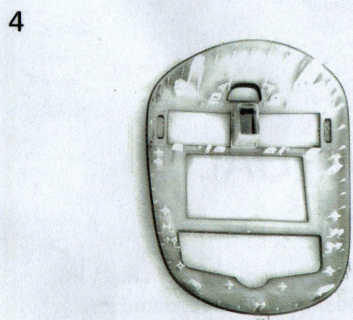

2 Remove the original fascia plate.

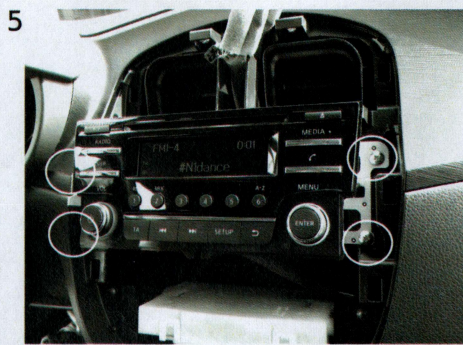

3 Remove all the components from the original fascia plate as shown in the picture:

- air vents
- hazard lights button
- doors lock button
- climate control display

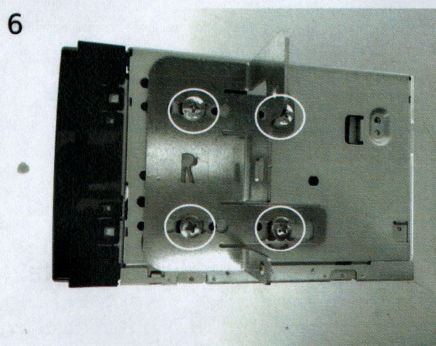

and save the screws.

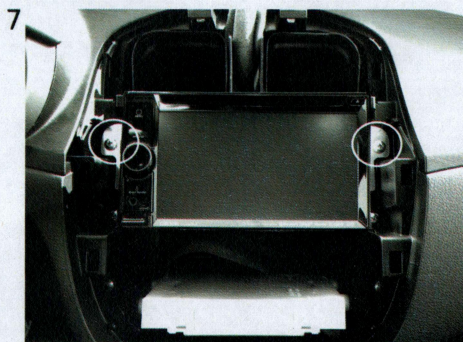

4 Fix, with the save screws, all of the components previously indicated to the fascia plate supplied in the kit.

5 Remove the original radio from its position by unscrewing the screws.

6 Mount the brackets included in the kit on the aftermarket head-unit.

7 Place and fix with the supplied screws the aftermarket head-unit to the dashboard.

8 Connect all the cables, check the correct operation and fix the fascia plate. In the picture it is shown the final result.
