Designed and
Engineered
in the UK. 

ABOUT

The Connects2 Infodapter for Land Rover vehicles provides retention of the vehicle's OEM steering wheel controls, amplifier, visual park aid and time/date change.

Land Rover Freelander (II) 2006 - 2014

DIP SWITCH SETTINGS

See Fig 1.

Up = Off, Down = On

1: On = Pioneer Head Units. Off = All Other Head Units

2: Setting for reverse camera. On = PAL, Off = NTSC. The default setting is Off (NTSC).

3: Resets the display settings back to default. If the display settings have been manipulated in a way that it is no longer possible to make adjustments, change the DIP switch #3 from Off to On and back. This will reset the screen settings to the factory defaults. During this procedure the screen background will change to red. While the background is red, no settings can be made.

4: Not applicable

Interface Connections

Steering Wheel Controls
